TREASURE CELLARS

**RUSSIAN RIVER - SONOMA COUNTY
CHARDONNAY**

This wine was made by perhaps the finest winemaker of Chardonnay in California or anywhere for that matter.

It is also from one of the most sought-after vineyards in the famous Russian River Valley. It's so special, we aren't allowed to share the location as this wine sells for a fraction of the price compared to what you would see from this combination of rockstar winemaker and celebrated vineyard sites anywhere else.

A rich golden hue like a tiger's eye delivers a fresh and vibrant wine that explodes with aromas of nectarine and honeysuckle. If you could drink a Meyer Lemon meringue pie with a graham cracker crust, this is what you would be drinking. There are also flavors of crisp apple, lime zest, grapefruit and a kiss of ginger and oak. Keep the Butterball for your turkey because while this wine shows a wink of oak and cream, it is a wonderful slice of tangy and sunny deliciousness that allows for the vineyard and the Chardonnay grape to shine without being drenched.

I'm not saying this is the best Chardonnay ever but I'm not saying it's not. Look, if you want a movie theater butter situation, there's plenty of "me too" wines out there that will satisfy that calorie rich desire. If you want a wine that transcends everything you thought you knew about Chardonnay and want to taste liquid sunshine, then you are in the right place.
