2022 Tocai Friulano Snows Crossing Vineyard

Winemaker Notes:

This variety is named for the Northern Italian region of Friuli where it is the most widely planted white grape. The 3,100' elevation of Snows Crossing vineyard helps retain crispness and acidity despite its warmer climate in the Sierra Foothills. We picked early the morning of September 1, pressed immediately to preserve freshness and aged the wine in 100% stainless steel barrels.

Tasting Notes:

Light straw-yellow color with notes of stone fruit, citrus, and alpine herbs. Light in body, with nice acidity and a refreshing finish, this wine pairs perfectly with salads and roasted vegetables.

Varietal	Tocai Friulano
Vineyard	Snows Crossing
Appellation	Sierra Foothills
Harvest Date	September 1, 2022
Brix	20.9

Alcohol %	13.0
PH	3.75
