TERRA SÁVIA

ANTHROPOCENE PINOT NOIR — NON-VINTAGE

VINEYARDS

Place of Production: 100% estate-grown Pinot Noir from organically farmed Sanel Valley Vineyards, Hopland, Mendocino County, California.

Soil: Predominantly Pinole gravelly loam, as mapped across the estate Pinot Noir parcel.

Mesoclimate: An inland Mediterranean climate with warm, dry summers, cool nights and mild, rainy winters.

Altitude: 500–600 feet above sea level.

Vineyard Setting & Exposure: Located on the valley floor of Sanel Valley in southern Mendocino County, the estate vineyard is surrounded by the hills of California's Coast Ranges, with Duncan Peak rising to the west.

Vine Age & Clones: Planted in 1999. The 11-row estate parcel features Pinot Noir clones 777, 667, 115 and 114, including a mixed-clone selection.

VINIFICATION

Grape Variety: 100% Pinot Noir from organically grown grapes.

Harvest: Hand-harvested at daybreak and transported in small half-ton bins to preserve fruit integrity.

Fermentation: Each vintage was vinified separately. Grapes were destemmed and lightly crushed, then fermented in small vessels with regular punch-downs.

Aging: Following fermentation, matured in stainless steel and subsequently in lightly toasted oak barrels.

Assemblage: Once the younger vintage had completed maturation, the wines from both harvests were blended into the final cuvée.

Blend Vintages: 2017 & 2018

Alcohol: 12.8%

Case Production: 38 cases

TASTING NOTES

Color: Medium-light ruby red with subtle garnet hues.

Aroma: Medium to pronounced intensity, with red cherry, raspberry and blueberry, complemented by forest-floor notes and a hint of clove.

Tasting Profile: Fresh and finely textured, with medium-plus acidity and soft tannins that lend gentle structure, leading to a medium-long finish.
